Why Attend?

The **Digital Personal Data Protection Act (DPDPA), 2023**, and the **New Rules 2025** are fundamentally reshaping the data landscape in India. Compliance is not optional—it's mandatory. This intensive **2-day professional training program** will provide you with a comprehensive understanding of the new framework, ensuring you can practically implement the required changes in your organization. The agenda is designed for maximum participant engagement through a balanced mix of foundational knowledge, hands-on exercises, and interactive segments.

Practical Implementation

The content is broken into foundational theory, hands-on activities, and topical discussions to support both learning and **practical application**.

Active Learning

Active segments like **case studies, group exercises, role-play, and simulations** ensure participants apply knowledge, not just listen passively.

Comprehensive Coverage

Cover both the **DPDPA 2023** fundamentals and the anticipated **Draft Rules 2025**.

Expert Practitioners

Learn from a professional training program designed to simplify complex legal and technical requirements.

Professional Development

Earn **8 CPE credits** for legal professionals or **8 CPD hours** for privacy professionals, along with a **Certificate of Completion**.
